Air Conditioning

Product Information PAR-21PC : Desktop Remote Controller

Our air conditioning systems are supported by a multitude of remote controllers. Each remote controller type, whilst being able to support the general control and monitoring functions for a group of indoor units, can also offer other unique operational features.

The PAR-21PC allows the customer to control the Air Conditioning from a PC. An Ethernet centralised controller must be installed (AG150, EB50 or GB50ADA).
